

# SİSMAK

HAYATA YÖN VER

# 1980'den bu yana, hayata yön veriyoruz.

Sismak, uluslararası standartlarda "Direksiyon kutusu" üretmek amacıyla 1980 yılında kuruldu. Daha o yıllarda, "direksiyon kutularının araçlara ve dolaylı olarak insan hayatına yön verdiğinin bilinciyle" üretim gerçekleştirmeyi ana ilke olarak benimseyen Sismak, yenileme pazarı ve OEM müşterilerine daima yüksek kalitede ürünler sundu.

Yıllar içerisinde bu ana ilkesinden ödün vermeden üretimini sürdüren Sismak, Türkiye'nin ikinci büyük ihracat limanının bulunduğu, İzmir'de üretimine devam ederken, tesislerini de 10.000 m<sup>2</sup> alan üzerinde kurulu, 6.500 m<sup>2</sup>'lik kapalı alana genişletti. Bugün uluslararası kalite standartlarına sahip tesisinde faaliyetlerini sürdüren Sismak, her biri konusunda uzman geniş bir "insan kaynağı" da oluşturmayı başardı.

4 kıtada ve 30 ülkede pazarlama faaliyetlerini yürüten Sismak, bu kadar geniş bir coğrafyaya ürün ve hizmet sunmanın doğal sonucu olarak, ürün çeşitliliğini ve üretim miktarlarını hızla arttırdı.

“Değişim; Gelişimin En Önemli Parçasıdır” ilkesiyle faaliyetlerini sürdüren Sismak, 2016 yılında yenilenen logosu ve “Hayata Yön Ver” sloganı ile üretmeye ve gelişmeye devam ediyor.

# Marka hikayemiz...

Direksiyon kutularının araca ve dolaylı olarak insan hayatına yön vermesi fikri doğrultusunda marka ismindeki "A" harfi, bu "yön"ü simgeleyecek "bir ok işareti" şeklinde tasarlandı. "Herkesin kendi yolunu ve yönünü tayin edebilmesi" düşüncesi ile "Sismak'la Hayata Yön Ver" sloganı bu iletişim temasını bütünleyen bir öge olarak belirlendi.

**SİSMAK**  
HAYATA YÖN VER

# Mühendislik harikası işlere imzamızı atıyoruz.

“Araçlara ve dolaylı olarak insana yön veren bir üretim gerçekleştiren” Sismak’ın Mühendislik Bölümü, tüm araştırma ve geliştirme faaliyetlerini bu ilke doğrultusunda sürdürmektedir. Titiz bir anlayışla başlayan dizayn çalışmalarının ardından proses tasarımı yapılmakta; müşterilerin talep ettiği tüm prototip ve numune ürün çalışmaları bu bölüm tarafından yürütülmektedir.

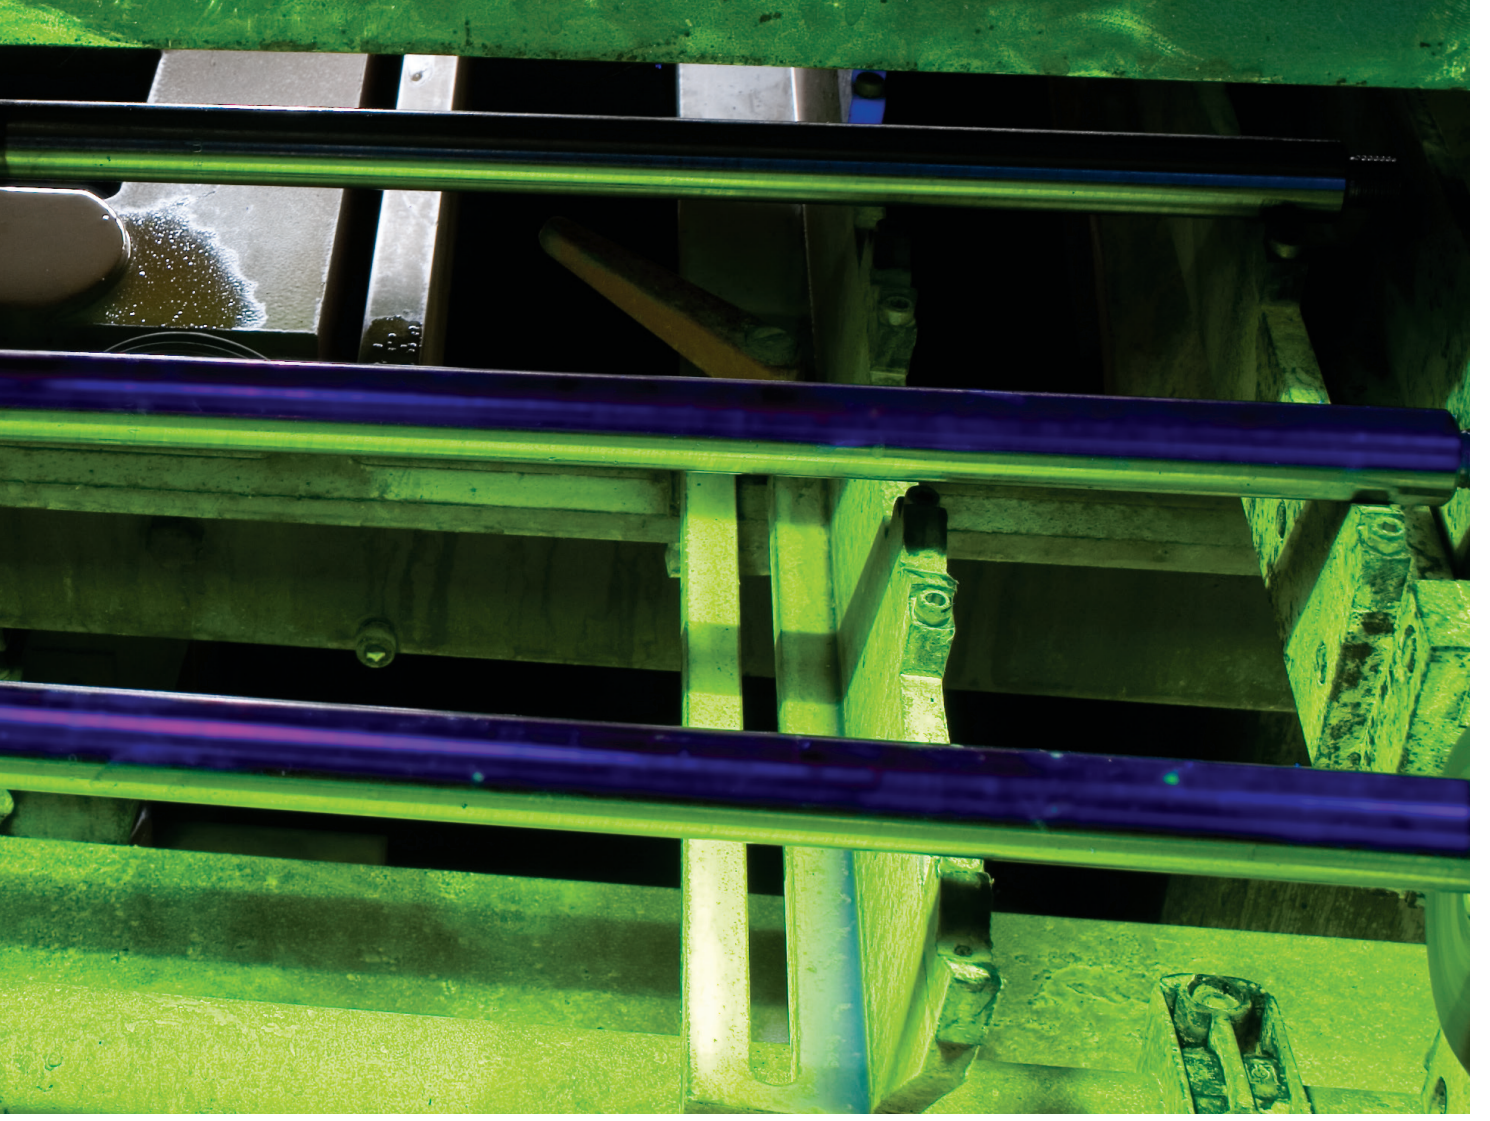

Ürün performansını artırmak ve müşterilerden gelen taleplere eksiksiz yanıt verebilmek amacıyla tüm talepler için proje ekibi kurularak APQP, DFMEA, PFMEA çalışmaları yapılmaktadır. Gerekliğinde müşteriler ile ortak ekip çalışması yapan Mühendislik Bölümü, kusursuz Sismak üretim anlayışının canlı göstergesi olarak tüm tasarım faaliyetlerini aynı anlayış ile gerçekleştirmektedir.

# Daima yolunda giden üretim süreci!

“Planlama, Satınalma ve Üretim” aşamalarından oluşan Sismak prosesinde en önemli unsur, “tekrarlanabilen ürün kalitesi”dir. Sismak’ın tüm müşterileri ve iş ortaklarında sağlanan güven duygusunun temelini de uluslararası standartlardaki bu politikası oluşturmaktadır.

Üretimin ilk aşamasında ERP yazılımı ile montaj ve üretim tezgahlarının zaman planlaması, müşterilerin taleplerini eksiksiz olarak karşılayacak şekilde gerçekleştirilir. Üretim planlamasının ardından ise ortaya çıkan MRP raporuna göre ürün kalitesini garanti eden onaylı tedarikçilerden, Sismak malzeme kabul şartnamelerine uygun satın almalar gerçekleştirilir.

Üçüncü aşamada, uygunluğu garanti altına alınmış üretim ve montaj proseslerinde donanımlı operatörlerimizle, Sismak teknik dokümantasyonlarına uygun olarak üretim gerçekleştirilir. Her aşaması kontrol altında geçen bu süreçte yapılan tüm testler ile Sismak "İnsanların hayatına da yön verdiği" gerçeğinden bir an bile uzaklaşmaz!

# 4 kıtada faaliyetteyiz!

Kuruluş ilkeleri arasında yer alan ve 1980'den bu yana ödün vermeden gerçekleşen üstün kalitede üretim anlayışı, Sismak'ın yurt içi ve yurt dışı yenileme pazarlarında ve orijinal üründe güven duyulan bir firma olmasını sağlamaktadır. Belirli bir takvim çerçevesinde sürdürülen üretim; uluslararası fuarlar, basılı medya ve internetten oluşan iletişim faaliyetleri ile desteklenerek satış ekibinin de üstün çabaları ile dünyanın dört köşesine yayılmaktadır.

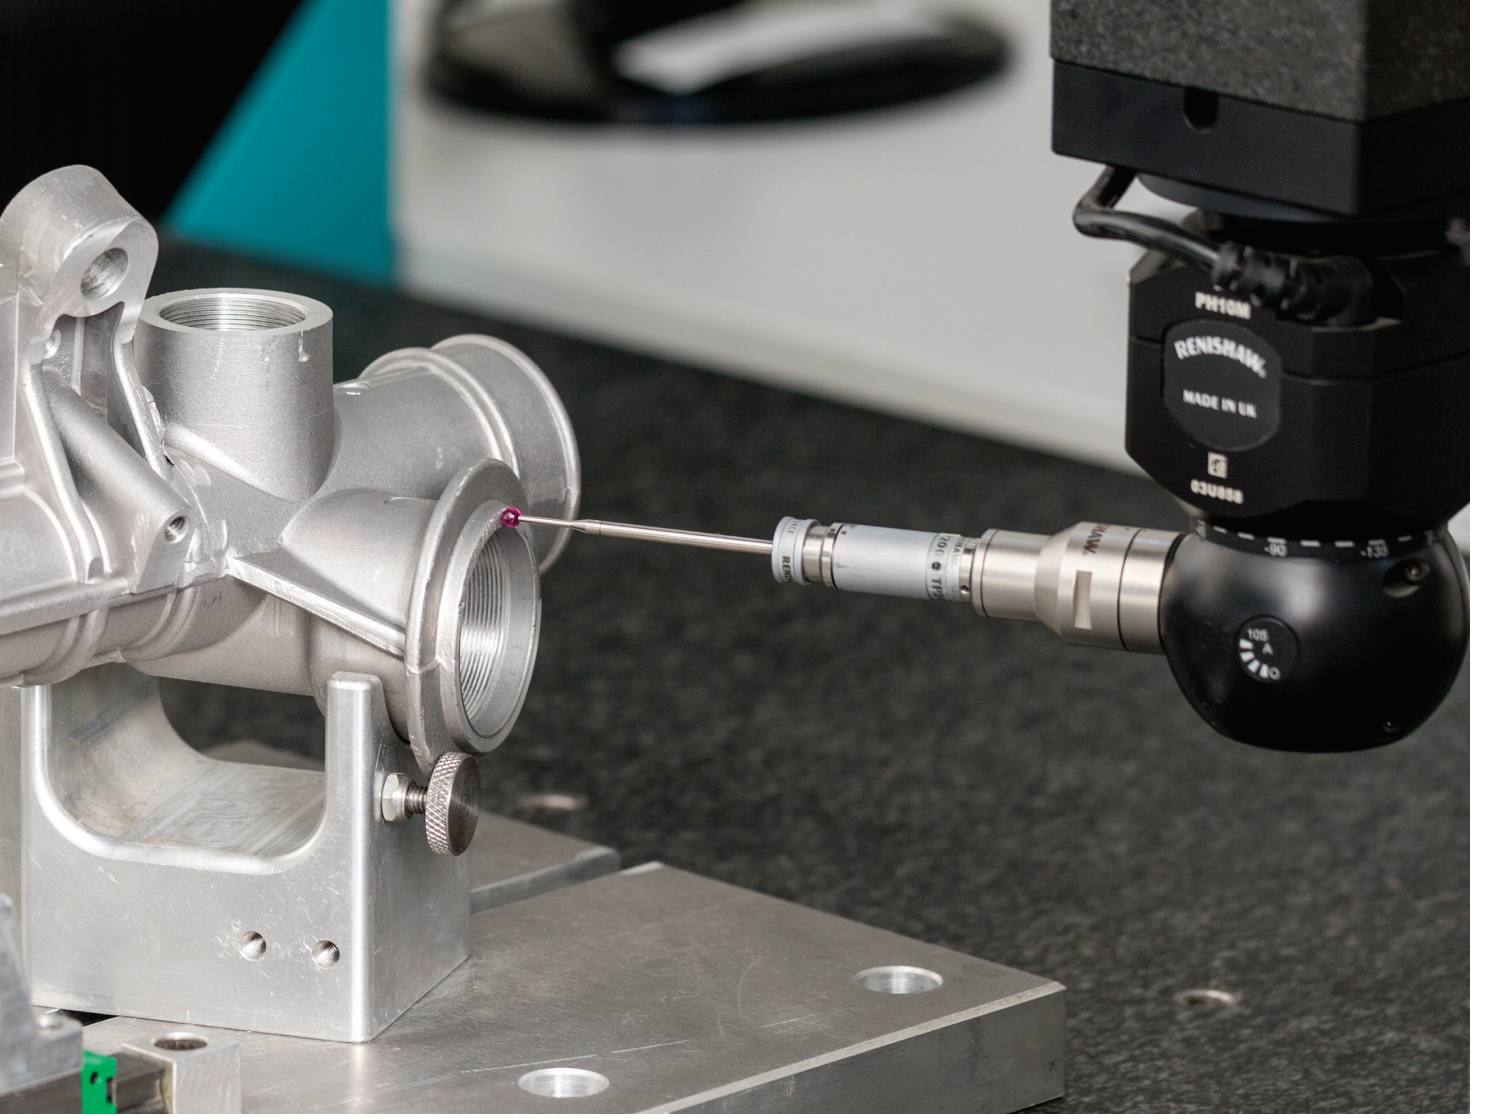

Yurt içinde 15.000'e yakın satış noktası aracılığıyla, yurt dışında ise 4 kıtada 30'a aşkın ülkede sürdürülen tüm satış ve pazarlama faaliyetlerinde araçlara ve sektöre olduğu kadar "insan hayatına da yön verdiğimiz" gerçeğinden hiç uzaklaşmaz. Tüm siparişlerin zamanında ve eksiksiz ulaştırılması sürecinde aktif rol alan Sismak Satış Ekibi, aynı zamanda yurt dışı sevkiyatlarda müşterilerine gümrükleme ve taşıma konularında ücretsiz danışmanlık hizmeti vermektedir. Lojistik olarak Türkiye'nin avantajlı liman kenti olan İzmir'de faaliyet gösteren ve çok hızlı bir şekilde deniz, hava, kara ve demiryolları ile sevkiyat yapabilen Sismak, ürünlerini en uygun maliyetlerle müşterilerine sunmaktadır.

# Sismak'ta ürün kalitesi hep aynı.

“Tekrarlanabilen ürün kalitesi...” Sismak'ta tüm üretim süreci, 1980'den bu yana sağlanan bilgi birikimi ve deneyimle gerçekleştirilirken bu ana ilke de hep göz önünde tutulur.

Uluslararası kalite sistem standartlarında gerçekleşen muayene ve kontroller, girişten başlayarak tüm üretim ve final aşamalarında sürdürülürken, tüm bu kontroller boyutsal, kimyasal, fiziksel ve ürün performans test sonuçları değerlendirilerek yapılmaktadır.

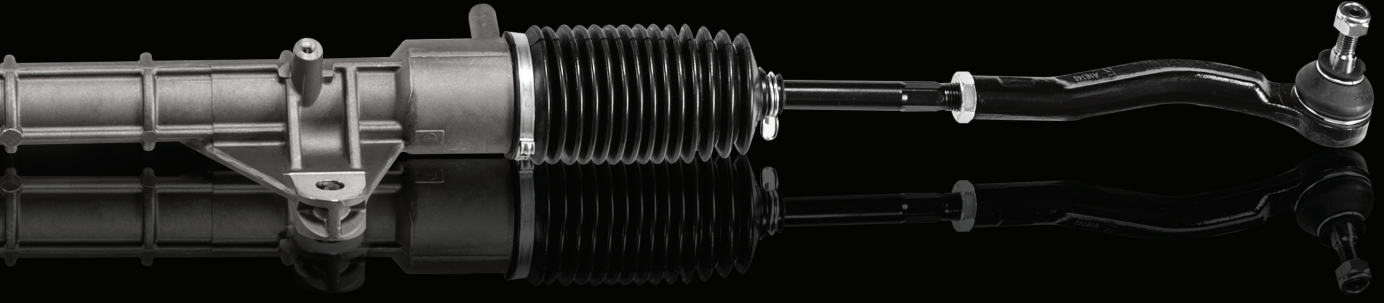

Her aşamasında aynı özenin sürdüğü bu kalite yönetimi, kullanıcı emniyeti ve sürüş konforu sunan, yüksek performanslı Sismak üretimini sağlar. Kuruluşundan bu yana her ürünü ve her faaliyeti ile sektörüne yön vermeyi sürdüren Sismak'ın başarısı da işte bu değişmeyen ama daima gelişen kalite anlayışında gizlidir.

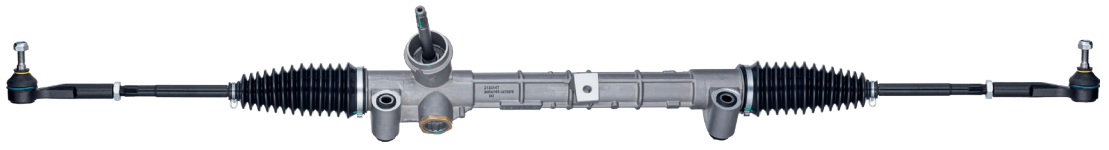

# Markanız için bir Sismak mutlaka var!

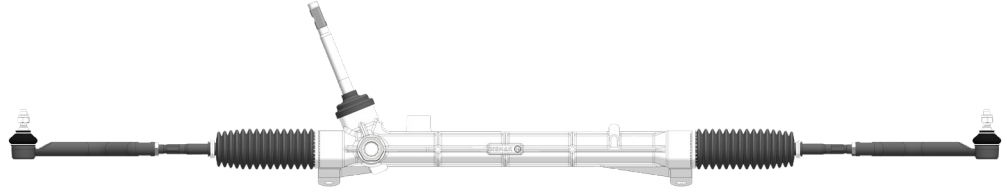

Bir firma, lider markaların tüm modellerine uygun, uluslararası standartlarda ürünler sunuyorsa... Yıllık 354.000 adetlik kapasite ile yetinmeyip özel siparişleri de hızla karşılıyorsa... Ülkesine sığmıyor, ürünlerini dünyanın 4 kıtasındaki 30 ülkeye ulaştırıyorsa...

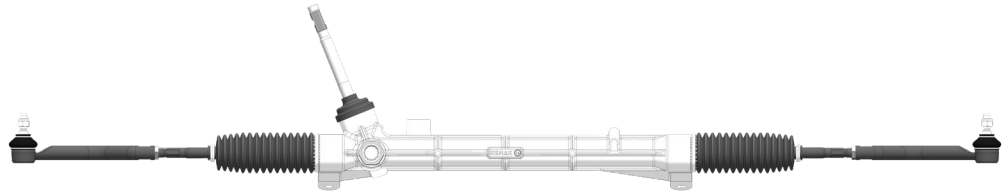

Ürün gamını sektörüne olduğu kadar, insan hayatına da yön vermek bilinciyle yeniliyorsa... Üstelik tüm bunları 1980'den beri aynı kalite anlayışıyla başarıyorsa... O firma için "Değişim; Gelişimin En Önemli Parçası" demektir.
